SEBANG VINA

about SEBANG VINA

Sebang Vina is a corporation founded on January 14, 2015, taking full advantage of logistical know-how from the Sebang group. Sebang Vina opened its doors with an ambitious goal of providing the best possible integrated logistics services in Vietnam.

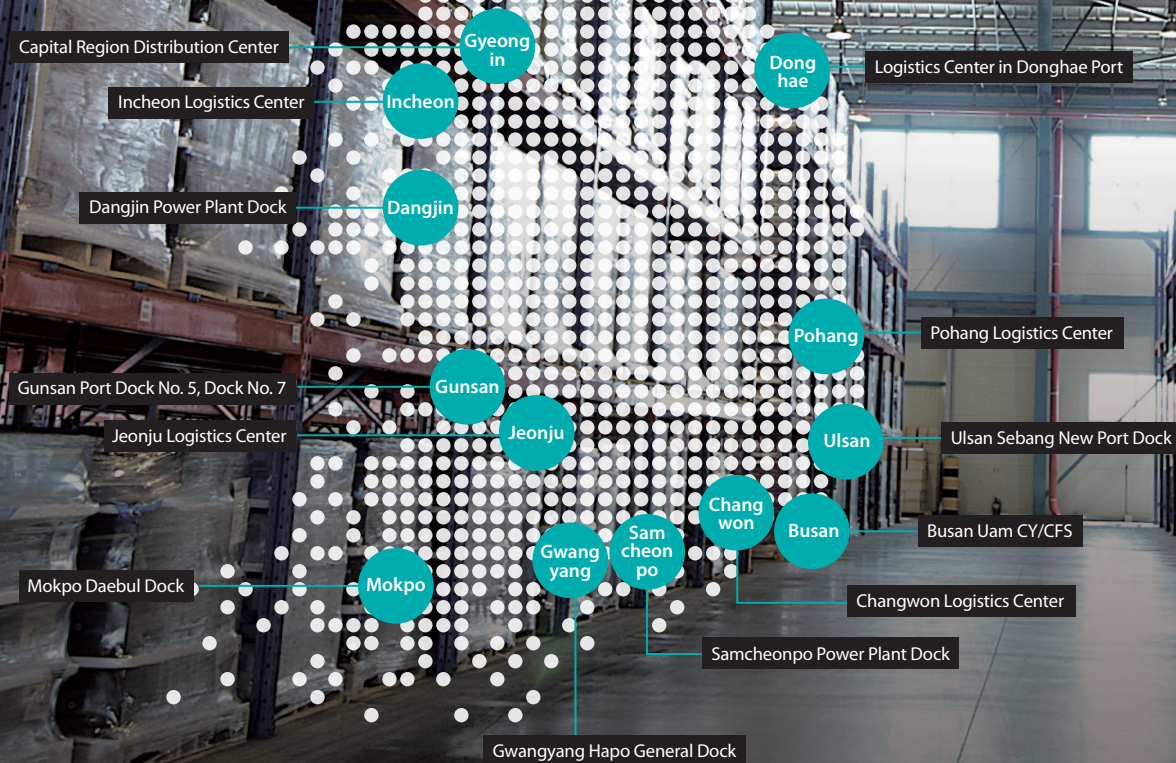

The Sebang group, which took the first step into the logistics business with handling of export and import containers in 1965, has now grown into a representative logistics company in Korea with a competitive network based on major ports and logistics hubs in Korea. We handle more than 2 million TEUs of containers and 30 million tons of bulk cargo a year.

Sebang provides the best logistics service based on matchless technologies, efficient technical & operational know-how of latest equipment, and professional manpower with rich experience. These unique technologies have been accumulated over the last half century from many different fields of import & export cargo handling, warehousing, marine & inland transportation, overweight cargo transportation & installation, and 3rd party logistics.

Sebang Vina will make the best efforts to satisfy our customers by providing customized and integrated services such as storage, transportation and forwarding services including customs clearance. In addition, we offer constantly updated real-time logistics information using self-developed IT system. It guarantees the quick and precise logistics services to enhance our status throughout the whole world.

Sebang Vina will strive to be the premier global logistics partner by expanding our logistics networks with your supports.

SEBANG NETWORK

Locations & Facilities
